

# ECOTRON F2800 PORTABLE X-RAY SYSTEM

Ultra-Lightweight, High Frequency, High Performance, and DR-Ready

The Ecotron F2800 is a powerful medical X-Ray machine that allows for easy exams and provides detailed and accurate studies. Perfect for imaging centers, portable imaging providers, and Podiatric & Orthopedic practices that do not require a dedicated Rad Room, the F2800 is built for convenience and ease-of-use, without the high price tag. Also suited for small hospitals, our system is ideal for maneuverability between patient rooms and between departments.

Our proprietary, portable X-Ray cart is one of the smallest and most lightweight on the market. Tech-friendly and perfect for smooth transportation between patient homes, hospital rooms, and other facilities, our carts and X-Ray imaging system have been engineered to increase functionality and mobility in a wide range of medical settings.

*Max Output Power: 2.7KW*

*Generator Frequency: 70KHz*

*KV Range: 40~100kV*

*mA Range: 12~30mA*

*mAs Range: 0.4~100mAs*

*Input Voltage: 110/220V*

*Phase/Frequency: Single/50-60Hz*

**Tech-Friendly**  
**Ultra-Lightweight**  
**High Performance**  
**DR-Ready**

## ULTRA-LIGHTWEIGHT

Optimized for mobility, the net weight for this entire system with a DR panel is only ~100lbs

## HIGH FREQUENCY

The F2800 has more efficient generation and control of power required to drive the X-Ray tube

## DR READY

Equipped with our proprietary cart design and DR upgrade kit, our systems are ready for digital use and can even be customized for CR use

## SELF-CONTAINED UNIT

No more control panel issues - Detach just the X-Ray head & ship back for maintenance and receive a loaner system in the meantime

## AFFORDABLE

Save Thousands \$\$ over other X-Ray systems - Reduced price allows for more system purchases or the addition of MDI medical imaging software
